COME WITH A DREAM

train for a career

The AVEDA Institute was founded to create some of the most successful entrepreneurs in hair, skin and nail esthetics, makeup and total body wellness. Students are educated by professionals, using innovative curriculums that blend professional techniques with retail and business-building skills. What sets the AVEDA Institute apart is the emphasis on personal well-being, as well as environmental responsibility. AVEDA's plant-based products use pure flower and plant essences, affirming the relationship between personal beauty, wellness and the environment.

THE AVEDA DIFFERENCE

REAL WORLD DIFFERENCE

Each of our Institutes engage an Advisory Board of successful salon and spa owners to guide and assess the effectiveness of our curriculum. Each institute has a curriculum that provides hands-on training in our clinic salon and spa environment. You'll have licensed educators to advise and consult you as you become comfortable with your new skills, and a customer base who understands that you're here to learn — which is what it's all about!

IN-DEPTH EXPERIENCE

An AVEDA Institute education is rigorous and thorough. Students are proud of the extensive details of their curriculum, which covers anatomy (the bones of the face, important for makeup application) to color theory (essential to understanding complementary colors in hair and makeup). When you immerse yourself in any of our programs, you'll cover topics in varying levels of depth and detail, giving you a foundation for your professional future.

POST-GRADUATION & THE AVEDA NETWORK

AVEDA Institute graduates receive placement assistance in AVEDA's professional network of nearly 8,000 salons, spas, institutes and stores worldwide. Student placement in successful salons and spas is a priority, and AVEDA brings you incredible opportunities for growth — both personal and professional, however, our placement assistance does not guarantee employment.

STATE LICENSING PREPARATION

Our programs are designed to prepare students for the state licensing examinations in their field. Students will be educated on state laws, safety, sanitation requirements, and will learn the technical, personal and business skills to prepare them for work in a professional salon or spa.

WE ARE SALON & SPA OWNERS

Since we are also salon & spa owners, we have first-hand knowledge of what owners want in an employee. Our curriculum reflects the insights of successful salon and spa professionals; when you graduate, you will know the qualities an owner looks for and will be equipped with an understanding of the standard of excellence which will meet their expectations.
