### Perfecting Plant Peel™ - *add-on*

Advancing the science of chemical peels, this treatment helps retexturize skin; smooth fine, dry lines; refine the look of pores; & restore radiance. Safe for acneic skin, add this treatment when skin needs the exfoliation & radiance benefits of a 30% glycolic peel procedure with less of the associated redness & irritation.

## Aveda's Plant-Powered Alternative to Microdermabrasion and Chemical Peels

### Dual Exfoliation Peel (60 minutes) \$70

Aveda's latest advancement in non-invasive, skin-renewing treatments using innovative techniques. This treatment combines Aveda's naturally derived mechanical and biochemical exfoliation methods into one powerful service that transforms and rejuvenates the skin through the process of dual exfoliation. The treatment delivers immediate, visible results in improved skin texture and radiance; smoothed appearance of fine, dry lines; and refined pores, revealing fresher, younger-looking skin. In a clinical study, the Dual Exfoliation Peel achieved better results than a combined microdermabrasion/30% glycolic peel treatment in both immediate smoothness and radiance, plus significantly better results in smoothness, radiance and the appearance of skin tone one week later.
